MEMORANDUM

To: File – Metro Energy Corporation 19-08
From: John Patrone, Environmental Senior Specialist
CC: Jason Watkins, Western District Supervisor
Sarah Rice, Compliance Officer
Geof Little, Environmental Engineer
Date: January 15, 2014
Re: Site Visit

On January 6, 2014, John Patrone of this office conducted a site visit to Metro Energy Corporation to view scrap tires (whole, processed, and residuals) remaining on the site. The facility is required to properly reuse and/or dispose of the scrap tires in order to proceed with permit cancellation/site closure.

The scrap tires have not been removed. The site was not secured from public access and notice indicating the site is closed with alternative disposal sites was not observed.
